DETAILED ACTION

Allowable Subject Matter

1. Claims 1-9, 12-17, 20, 21, and 23-31 allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1-9, 12-17, 20, 21, and 23-31 are allowed because none of the prior art of record discloses a second transistor having input and output current flowing terminals and a control terminal, wherein current flowing through the input and output current flowing terminals is communicated to the control terminal of the first transistor for controlling current flowing through the input and output current flowing terminals of the first transistor; and a resistance coupled in series with the input and output current flowing terminals of the first transistor and with the control terminal of the second transistor; wherein a voltage from the power supply is input to the resistance and to one of the input and output current flowing terminals of the second transistor such that a voltage applied to the control terminal of the second transistor through the resistance remains substantially constant in response to voltage fluctuations of the power supply so that substantially constant current flows through the input and output terminals of the first transistor; in combination with the remaining claimed features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
